Everbrite Gen II Image Specification
Version 1.2 – 4/4/2008
by Jim Heuberger

Image Type
PC-formatted JPEG files (*filename.jpg*)
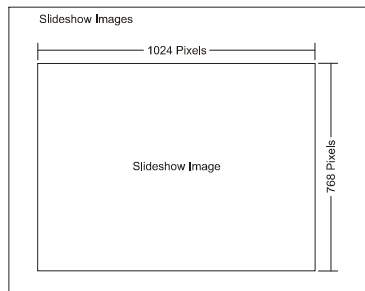

Color Depth
24 bit

Resolution
96 dots/inch or greater

File Size
Compressed to approximately 250KB for full-screen images and 100KB for column images
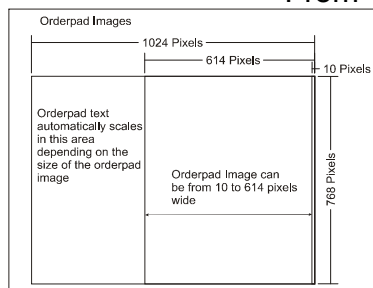

Image Sizes

Slideshow Images: 1024x768 pixels typical

These images fill the entire OCS screen and are used for slideshow slides, greeting screens (optional) and closing screens (optional).

Orderpad Images: 1024x768 pixels (full screen) or
From 10x768 pixels to 614x768 pixels (column image) - 320x768 typical

Full Screen – These images fill the entire orderpad and orders are displayed over them. Caution should be used when using this format so the text isn't made difficult to read by the image behind it.

Column Image - These images align to the right side of the screen and orders appear to the left of the image. The color of the background on the left side of the screen is defined for each daypart using the Everbrite back office application (OCS Editor).
